PROJECTS

Blog Management Platform (MERN Stack)

- Designed and developed a secure, responsive blog management system with category-based filtering and individual blog detail pages.
- Implemented authentication, comment system, and contact feature to ensure interactivity and user engagement.
- Enhanced overall content creation workflow, ensuring seamless navigation and a better reader experience.

Weather Forecasting Website (React + Open Weather API)

- Developed a responsive weather application integrating real-time data from Open Weather API to display current conditions and 5-day forecasts.
- Implemented city-based search with auto-detection of user's current location for personalized weather updates.
- Enhanced user experience through interactive charts, clean UI, and optimized API handling for faster performance.

INTERNSHIP

Web Development Intern - Hebbale Academy | 45 Days

- Worked on front-end and back-end web development using HTML, CSS, JavaScript, and Python.
- Gained hands-on experience with AWS services and NoSQL database DynamoDB.
- Collaborated in a team to deploy functional modules and improve UI/UX features.

MEAN & React JS Training – MCA PL | June 2025

- Completed intensive training on full-stack development using MongoDB, Express.js, Angular, Node.js (MEAN), and React.js.
- Gained hands-on experience in building scalable web applications through guided projects.
- Earned certification with Grade "B", demonstrating strong proficiency in modern web technologies.
